In a short essay (no more than one page), please highlight the special skills or talents that you bring to the program, especially with regards to interests, background and research experience. Feel welcome to add any information you deem relevant beyond the other application materials that you have already submitted. Continuing students who are applying for support after their first year in the program should turn in an approved copy of their Program of Study (POS) and a statement of their research plan in lieu of the background essay. Please sign and date your essay/research plan.
