Summer Semester is almost over. It’s time for our students to kick back and for you to catch up on all things LEAP!

Visit our Website

Farewell Party

Our last Cultural Hour of Summer Semester took place last week. We had an international potluck, gave out 11 Perfect Attendance certificates and enjoyed activities and games created by the Level 3 Listening & Speaking class!

LEAP Art

Check out this amazing drawing that Level 4 student Aml Altwayjri, who is from Saudi Arabia, made this semester in her Art 3280 course. Level 4 TOEFL Waiver students are able to take a university course related to their major, and Aml learned all about what goes on in an American university’s art program. Nice work!

LEAPing onto Campus
The Level 3 Integrated Skills students did an activity in class that took them all over campus! They visited the buildings of their intended majors, spoke with representatives in different support offices and checked out places to eat and exercise. Pictured here are Ting "Lydia" Zou from China and Bhagwanti Bhagwanti from India. A clear blue sky and a big bright sun made it a perfect morning for walking around campus! Great job, L3!

---

**Homeschool Family Activity**

Earlier this month, LEAP students got to meet and interact with local families who homeschool their children. The LEAP students shared about their countries and cultures and the homeschool families and children spoke about how and why they homeschool. Some of the children brought school projects and books to share. This is the 8th time over five years that LEAP and local homeschool families have gotten together. It’s a win-win for all! Thank you to all the families for coming to WSU!
