I. FIELD EDUCATION: THE SIGNATURE PEDAGOGY OF SOCIAL WORK EDUCATION

Field education is the signature pedagogy of the social work curriculum. Field education is the central form of applying the course theories, values, and skills to the practice setting. Students will complete 300 hours of field education during the second term of Year 1, 300 hours of field education in the first term of Year 2, and 300 hours of field education in the second term of Year 3, except for Advanced Standing students, who complete 500 hours for Field Education I and II. Field Education I, II & III will be accompanied by a seminar where all application of all program competencies will be discussed. It is preferable that students choose two different placement sites. The same site will be used for the placement in Year 2. In Field Education III, students will participate in professional development seminars as part of their final preparation for entrance into the field.

The program provides students with opportunities to gain foundation and advanced level field experience in conjunction with their social work curriculum in order to enhance their knowledge and abilities in applying theory and other concepts to the respective levels of practice. Students receive feedback on their application of knowledge to practice through assignments from their seminar instructors, from their field instructors, and from instructors of other course the students are taking concurrently with field education. Students are expected to participate in field education work experiences that allow them to fulfill the ten core competencies at increasing levels of specialization and independence. Students are expected to utilize their classroom knowledge as they demonstrate their fulfillment of the ten core competencies.

Students cannot receive field education credit for life experiences or previous work experiences.

II. THE GREATER MIAMI VALLEY JOINT MASW: MIAMI UNIVERSITY OF OHIO AND WRIGHT STATE UNIVERSITY

The Greater Miami Valley MASW program is a joint graduate program of Social Work between Miami of Ohio and Wright State University. The program was approved by the Ohio Board of Regents in May, 2012. The program was fully accredited by the Council on Social Work Education (CSWE) in June, 2014. Persons graduating with a Masters of Arts in Social Work from our program are eligible to become Licensed Social Workers (LSW) and Licensed Independent Social Workers (LISW) in the state of Ohio.

Wright State University

The Department of Social Work is located in the College of Liberal Arts, one of the six undergraduate colleges/schools at Wright State University (WSU). The undergraduate program has been accredited by the Council on Social Work Education (CSWE) since the 1970s and recently reaffirmed in 2010. This ensures that the curriculum and faculty meet established, national standards. As of October, 1992, an undergraduate social work degree from an approved program is a prerequisite to apply
for Ohio state social work license as a social worker (LSW).

The MASW program at Wright State has six full-time faculty. This includes the Wright State MASW Co-Director and five full-time classroom faculty and several adjunct faculty.

The full-time faculty and staff in the Social Work Department are:

Dr. Shreya Bhandari, Ph.D., Associate Professor, Wright State-MASW Program Co-Director
271 Millett, (937) 775-2244, shreya.bhandari@wright.edu

Dr. James R. Carter, Ph.D., Assistant Professor
272 Millett, (937) 775-2585, james.carter@wright.edu

Mary Clem, B.S. MIS, Administrative Specialist
270 Millett, (937) 775-4548, mary.clem@wright.edu

Dr. Natallie Gentles-Gibbs, Ph.D., Field Education Coordinator
288 Millett, (937) 775-4580, natallie.gentles-gibbs@wright.edu

Dr. Jennifer Hughes, Ph.D., Assistant Professor
275 Millett, (937) 775-3431, jennifer.hughes@wright.edu

Doug Keown, MSW, Instructor
299 Millett, (937) 775-4168, douglas.keown@wright.edu

Dr. Hyejin Kim, Ph.D., Assistant Professor
277 Millett, (937) 775-2754, hyejin.kim@wright.edu

Paula Long, MSW, Instructor, UPP Campus Coordinator
288 Millett, (937) 775-3980, paula.long@wright.edu

Dr. Theresa Myadze, Ph.D., Professor
279 Millett, (937)-775-2240, theresa.myadze@wright.edu

Carole Staruch, Administrative Support Coordinator
270 Millett, (937) 775-2751, carolyn.staruch@wright.edu

Dr. Sarah Twill, Ph.D., SW Chair
273 Millett Hall, (937) 775-2868, sarah.twill@wright.edu

The Part-Time Adjunct Faculty in the Department are:

Jane Eckels, MSW, Miami Valley Alzheimer’s Association
Joy Forcier
Kimberly Holbert, MSW, Montgomery County Children’s Services
Beth Kinsel, Ph.D., MA in Gerontology Greene County Council on Aging
Mary Ann Hemmert, MSW, Wright State Social Work

Miami University

Social Work is part of the Family Studies and Social Work (FSW) department, located in the College of Education, Health and Society. It is one of the five undergraduate colleges/schools at Miami University (MU). The undergraduate social work program is accredited by the Council on Social Work Education (CSWE), having received reaffirmation in 2011.

The MASW program has six full-time faculty members. This includes two Co-Directors and four full-time classroom faculty.

Miami University’s full-time faculty and staff in the Social Work program are:

Dr. Angela Curl, Assistant Professor
101D McGuffey Hall, (513) 529-1717, curla@miamioh.edu

Dr. Lindsey Houlihan, MSSA, Clinical Faculty, Director of Field Education,
101G McGuffey Hall, (513) 529-1684, houlihlg@miamioh.edu

Dr. William Newsome, MSW, Associate Professor,
Miami-MASW Program Co-Director
101J McGuffey Hall, (513) 529-2030, newsomws@miamioh.edu

Dr. Amy Roberts, Assistant Professor
101J McGuffey Hall, (513) 529-6117, rober128@miamioh.edu

Dr. Anne Roma, LISW, Co-Director, MASW program
101H McGuffey Hall, (513) 529-8519, romaa@miamioh.edu

Dr. Molly Sayre, Visiting Assistant Professor
101L McGuffey Hall, (513) 529-4908, sayreme@miamioh.edu

The following faculty and staff are on the Miami University Family Studies faculty and may teach some of the electives and non-practice courses (Research, Policy, HBSE, or Cultural Competency) in the program:

Kellie Bottoms, Support Staff, Administrative Assistant to FSW
101 McGuffey Hall, (513) 529-2323, penninka@miamioh.edu

Dr. Kevin Bush, Associate Professor, Associate Dean for Partnerships, Research, and Grants
Dean's Office, 207C McGuffey Hall, (513) 529-0405, bushkr@miamioh.edu
III. PROGRAM MISSION AND GOALS

Program Mission Statement

The Mission of the Greater Miami Valley MSW Collaborative offered by Miami University and Wright State University is to prepare students from the Greater Miami Valley region to become advanced generalist professionals. Graduates will be lifelong learners and leaders, contribute to the profession of social work through advanced generalist practice which emphasizes effective practice and policy skill development to promote diversity and cultural competency, social and economic justice, reduce oppression, and improve the broader human condition.

The mission of the Greater Miami Valley MSW fits with the purpose of social work which is to promote human and community wellbeing. Guided by a person-in-environment construct, a global perspective, respect for human diversity, and knowledge based scientific inquiry, social work’s purpose is actualized through its quest for social and economic justice, the prevention of conditions that limit human rights, the elimination of poverty, and the enhancement of the quality of life for all persons.

The Greater Miami Valley MASW Mission Statement fits well with the Mission and Vision of Miami University and Wright State University and the respective social work programs:

Miami University and Family Studies and Social Work Mission Statement

Miami University, a student-centered public university founded in 1809, has built its success through an unwavering commitment to liberal arts undergraduate education and the active engagement of its students in both curricular and co-curricular life. It is deeply committed to student success, builds great student and alumni loyalty, and empowers its students, faculty, and staff to become engaged citizens who use their knowledge and skills with integrity and compassion to improve the future of our global society.
Miami provides the opportunities of a major university while offering the personalized attention found in the best small colleges. It values teaching and intense engagement of faculty with students through its teacher-scholar model, by inviting students into the excitement of research and discovery. Miami’s faculty are nationally prominent scholars and artists who contribute to Miami, their own disciplines and to society by the creation of new knowledge and art. The University supports students in a highly involving residential experience on the Oxford campus and provides access to students, including those who are time and place bound, on its regional campuses. Miami provides a strong foundation in the traditional liberal arts for all students, and it offers nationally recognized majors in arts and sciences, business, education, engineering, and fine arts, as well as select graduate programs of excellence. As an inclusive community, Miami strives to cultivate an environment where diversity and difference are appreciated and respected.

Miami instills in its students intellectual depth and curiosity, the importance of personal values as a measure of character, and a commitment to life-long learning. Miami emphasizes critical thinking and independent thought, an appreciation of diverse views, and a sense of responsibility to our global future.

The mission of the social work program is to educate and prepare competent and effective professionals for generalist practice. The program seeks to provide and develop social work knowledge and skills to facilitate students in becoming effective change agents for social justice who advance the well-being of at-risk and disenfranchised populations. In preparing students for effective generalist social work practice, the program’s mission involves instilling in students the knowledge, values and ethics of the social work profession, its competency based purposes and its heritage. Our program seeks to ensure that students acquire practice and intervention strategies to effectively create social justice and to join with at-risk and disenfranchised populations in facilitating their functioning while simultaneously empowering them. Based on a liberal education perspective and a professional social work foundation, the program strives to educate students on at-risk and disenfranchised populations as well as the social contexts in which the development of effective service delivery systems transpire. Drawing from a generalist practitioner model committed to the social justice of at-risk and disenfranchised populations, social work students will be presented with multi-level strategies to advance generalist, and competency based practice. The Social Work Department at Miami University is dedicated to preparing ethical, competent, creative, and critically thinking generalist practitioners. The program strives to prepare students who are self-aware life-long learners, who deliver culturally competent interventions, and who are optimistic about their abilities to promote well-being through all levels of social intervention.

In keeping with the overall mission, faculty of the MU Social Work Program have taken leadership roles in service, research, and teaching that have benefitted students on the Oxford campus. Specifically, faculty in the social work program have initiated and contributed to the Center for Community Engagement, the Center for American and World Cultures, Service Learning and Civic Leadership, the Mosaic Program, Bridges: A Program for Excellence, MADE@Miami, Student Achievement Research and Scholarship
(STARS) and community groups within the Cincinnati inner-city neighborhood of Over-the-Rhine.

In addition, the mission of the MU Social Work Program fits well with the overall mission of Miami University. Specifically, a transformative nature exists between the two which seeks to focus on a diverse student, faculty, and staff community; fostering high quality undergraduate and graduate learning; partnering with the community to improve the local region; establishing new relationships to transform the lives of students; and preserving sustainable partnerships that are economically efficient.

**Wright State University and Social Work Mission Statements**

**WSU Vision Statement:**
“In the pioneering spirit of the Wright Brothers, Wright State will be Ohio’s most innovative university, known and admired for our diversity and for the transformative impact we have on the lives of our students and on the communities we serve”.

**WSU Mission Statement**
*We transform the lives of our students and the communities we serve.*

We are committed to:
- achieving learning outcomes through innovative, high quality programs for all students: undergraduate, graduate and professional;
- conducting scholarly research and creative endeavors; and
- engaging in significant community service.

The mission of the WSU Social Work Department fits well with the WSU values that drive its vision: focus on a diverse student, faculty, and staff community; fostering high quality undergraduate and graduate learning; partnering with the community to improve the local region; establishing new relationships to transform the lives of students; and preserving sustainable partnerships that are economically efficient.

**WSU Social Work Mission Statement**

The Social Work Department at Wright State University is dedicated to preparing ethical, competent, creative, and critically thinking generalist practitioners who pursue their work from a social justice perspective. The program strives to prepare students who are self-aware life-long learners, who deliver culturally competent interventions, and who are optimistic about their abilities to promote well-being through all levels of social intervention.

**Greater Miami Valley MASW Program Goals**
The program’s goals flow directly from its mission. The program’s goals are
1. Prepare lifelong learners of social work practice.
2. Prepare persons to master social work knowledge, skills, and values.
3. Prepare graduates to contribute to the profession of social work.
4. Prepare graduates to master advanced generalist direct practice skills.
5. Prepare graduates to master advanced generalist macro practice skills.
6. Prepare graduates to promote diversity and cultural competence.
7. Prepare graduates to promote social and economic justice.
8. Prepare graduates to reduce oppression at the local, state, national, and global levels.
9. Prepare graduates to improve the broader human condition.

The program goals fit well with the goals of Miami University and Wright State University

**Miami University of Ohio Goals**

1. Embrace Diversity
2. Build Community
3. Think Critically
4. Create Knowledge
5. Work Across Disciplines
6. Advance Social Change
7. Cultivate Collaboration
8. Foster a Global Perspective

**Wright State University Goals**

1. Academic Distinctiveness and Quality
2. Educational Attainment
3. Research and Innovation
4. Community Transformation
5. Valued Resources

**IV. GENERALIST AND ADVANCED GENERALIST PRACTICE**

The core component of the program are the concept of generalist and advanced generalist practice. Generalist social work practice comprises the theory, skills, and values obtained in an undergraduate program and the foundation component of a social work master’s program. Advanced generalist theory, values, and skills comprise the competencies and practice dimensions of the concentration focus of the master’s program.

The definition of **generalist practice** is:
Generalist practice is grounded in the liberal arts and the person and environment construct. To promote human and social well-being, generalist practitioners use a range of prevention and intervention methods in their practice with individuals, families, groups, organizations, and communities. The generalist practitioner identifies with the social work profession and applies ethical principles and critical thinking in practice. Generalist practitioners incorporate diversity in their practice and advocate for human rights and social and economic justice. They recognize, support, and build on the strengths and resiliency of all human beings. They engage in research-informed practice and are proactive in responding to the impact of context on professional practice. BSW practice incorporates all of the core competencies.

The faculty in the Miami Valley Joint MASW (Social Work Departments at Wright State University and Miami University) adhere to the following definition of advanced generalist social work practice:

**Advanced Generalist Practice** is the concentration for the Greater Miami Valley MSW Collaborative. Advanced generalist practice is taught through the concentration courses in the second year of the two-year full-time program.

We define advanced generalist professional as a person who uses critical thinking skills and differential application of advanced social work knowledge, theories, skills, values and ethics in the assessment of and intervention with micro, mezzo, and macro level systems.

The Advanced Generalist MSW professional:

- Is prepared to meet the needs of all clients
- Focuses on culturally competent, ethical practice that ranges from case management and clinical practice with individuals, families and groups through organizational administration and change, policy development, and community practice.
- Is prepared to assume leadership in both direct and indirect practice settings.
- Is committed to improving the lives of clients and the social work profession.
- Is committed to social and economic justice.
- Is committed to the implementation of evidence based practices.
- Is committed to understanding and applying multi-modal strategies based on a holistic assessment of the client situation as defined mutually by client and action systems.
- Applies a global perspective in understanding the context of oppression, promotion of social work values, and the promotion of universal human rights.

The emphasis of the Advanced Generalist Practice concentration is that all students will master direct practice and macro practice knowledge, skills, and values at the advanced level of social work practice. Additionally, each student will master direct
practice and macro practice knowledge, skills, and values to work with Families and Children or Older Adults.

V. PROGRAM COMPETENCIES AND PRACTICE DIMENSIONS

The practice dimensions in field contracts (appendix D & E) are the program’s operational definition of how the mission and goals of the program are met by having students master each competency listed. Each syllabus identifies the practice dimensions mastered in that course and how those practice dimensions are measured. Application of all practice dimensions will be expected before the completion of the MASW. Demonstration of foundation practice dimensions will be expected before moving on to the practice dimensions in the concentration courses.

In order to graduate with a MASW, students will master the practice dimensions at the level expected of Advanced Generalist Practice, meaning that the student will apply practice dimensions in more depth than expected of generalist practitioners and apply the practice dimensions expected in the concentration area chosen.

Appendix D has the nine competencies that guide this program. Following each competency is a set of foundation level practice dimensions. There are also Advanced Generalist practice dimensions for each competency (see appendix E). Demonstration of the competency at the Advanced Generalist concentration level means that the student also implements the foundation practice dimensions for that competency.

In Field Education I, students are expected to master the foundation practice dimensions in their field setting. In Field Education II & III, students are expected to master the advanced generalist practice dimensions. The agency contract (appendix D & E) and evaluation found later in this handbook outlines these practice dimensions and a range of associated tasks.

VI. ELIGIBILITY CRITERIA FOR FIELD EDUCATION

Students are directed to the Greater Miami Valley Joint MASW Student Handbook for policies related to all aspects of the program. These policies include the Application criteria to be admitted into the program, grievance policy, dismissal policy, description of the curriculum, and ways students can participate in guiding and assessing the program.

Admission Criteria to Begin Field Education

Students must meet with the Field Education Coordinator at the respective universities during the term prior to the placement: Dr. Houlihan at Miami and Dr. Gentles-Gibbs at WSU. Students must be in good standing with the program and graduate school. Academic good standing requires the student to maintain an overall 3.0 GPA, repeat any course with a grade lower than C, not take the same social work course more than 2 times, and not be able to count more than 2 Cs toward graduation. A student is placed on academic probation if she/he has below a 2.0 GPA and is eligible for dismissal if she/he is on probation for two
consecutive semesters. Students must also not be in violation of the Code of Student Conduct and must not be in violation of concerns listed in the Department Dismissal Policy.

Students will complete a student profile that will assist the Field Coordinator in contacting potential agencies for the placement. The Field Coordinator will make the first contact to the agency to see if supervisors are available for the upcoming term. Upon approval of the potential agency contact person, the Field Coordinator will then instruct the student to arrange a meeting at the agency. The Field Coordinator will send the Student Profile to the agency contact person. The student and potential field supervisor will complete a form stating they approve the placement or that they do not approve the placement with the reason.

Students may begin the foundation field placement (Field Education and Seminar I) after successfully completing Social Work Practice I, HBSE I, Policy I, Research I, and Cultural Competency. They must enroll concurrently in Social Work Practice II and have taken or be taking HBSE II and Policy II. Students may begin the advanced generalist field education (Field Education II & III) while concurrently taking Advanced Generalist II & III, Research II & III, and the advanced generalist focus area courses.

The process for enrolling in Field Education II & III is the same as applying for Field Education I. That is, students must complete an amended Student Profile that describes how the advanced generalist field setting will help the student master the advanced generalist practice behaviors related to the student’s concentration focus area. The Field Education Coordinator will again make the first contact to the potential field supervisor.

The Field Education Coordinator determines readiness to begin each field education. At any time, the Grievance Procedure described in the student handbook may be implemented by a student, field supervisor, or faculty member.

VII. FIELD EDUCATION POLICIES

Field Supervisor Minimum Qualifications: Field supervisors must have a Master’s Degree in Social Work (MSW) from a CSWE accredited program. Social work licensure (i.e., LSW or LISW) is not required. Exceptions may be granted with the instructor’s and/or field coordinator’s approval. In such cases, field supervisors must commit to reinforcing a social work perspective and the NASW Code of Ethics with training from the field coordinator and ongoing guidance from the faculty field liaison and the MASW program will provide accommodations for the student to be exposed to a social work perspective and professional development in social work.

Reasonable Accommodations: If needed, students with physical, mental, and/or learning disabilities may ask the director of their field agency for specific and reasonable accommodations for their disabilities. The Office of Disability Services at both Miami and WSU will also provide assistance in helping agencies, students, and faculty make needed accommodations.
General Policies:

**Hours:** Students enrolled in the full time concurrent field placement must complete 900 clock hours over the three Field Education courses. Advanced standing students complete 500 clock hours over the two Field Education courses. Each semester of field education students must complete 250 - 300 hours, which is on average 18 - 20 hours per week. Students are typically in their field placement during day time business hours (Monday through Friday from 8 am to 5 pm). Securing a field placement outside business hours is rare as MSW level social workers typically work from 8am -5pm. Before applying and enrolling in a graduate program, individuals should give significant thought to their lives, and how work and family obligations will need to be adjusted in order to add the required school obligations. All placements are coordinated through the social work field office. Per Council on Social Work Education (CSWE) recommendations, the field office acts as the liaisons between the student and the agency to assure that CSWE practicum requirements are followed. As such, students should not contact social service agencies without the permission of the field director. Students who cannot do their field placement during the traditional business hours (Monday through Friday 8 am to 5 pm) will work with the field coordinator to discuss their life circumstances and field placement options. Needing to complete the practicum during non-traditional business hours may lead to delaying graduation.

**Attendance:** Students are expected to be punctual and observe the regular agency working hours. When students are absent or tardy for reasons beyond their control (death in family, illness), they must call their field supervisor by 9:00 a.m. and give reason for absence or tardiness. Students should speak directly to the supervisor; a message should be left only if the supervisor is not accessible. Students are expected to make up missed time. This is to be structured in conjunction with the agency field supervisor.

**Holidays:** Students can take agency holidays and university holidays off. However, these holidays are to be negotiated at the beginning of each semester. Assignments and responsibilities to clients should guide the decisions relative to holidays.

**Professional Meetings:** Students are encouraged to attend professional meetings. The field supervisor can determine the appropriateness of such a meeting and whether practicum hours can be used. The MASW program may also encourage students to attend certain professional meetings and will allow time to count for practicum hours. Such a decision will be made in conjunction with the field supervisor.

**Time Records:** Students are required to maintain written documentation of field education hours completed. The field supervisor is to document hours on the evaluations submitted at the end of each semester. Students are expected to complete a monthly time log and turn this in to the Field Education Coordinator.

**Withdrawal from field education:** Students have the right to drop the field education within the University approved period. However, this decision must be discussed in
detail with the Field Education Coordinator and the field supervisor. Termination of field education may be initiated by the student, agency, or Field Education Coordinator and must be done in a planned way to minimize damage to agency services and clients, the student, and the future working relationship between the agency and the MASW program.

Students who do not pass their field placement due to failing to demonstrate competency on the practice behaviors, or for other personal reasons, may work with the field supervisor and MASW Director to determine if a second field placement opportunity is warranted. Depending on the severity of issues in field, students may be dismissed from the program after one failed field placement. Failing a field placement will result in a change of the academic plan, and delayed program completion.

Field Education and Employment: CSWE accreditation standards emphasize that the field education must demonstrate a "clear differentiation between work and student learning assignments." Thus, the MASW program makes every attempt to have students complete their field education at an agency where the students are not employed. For the exception – field education at the same agency where the student is employed - the following conditions must be satisfied: 1) student must be assigned to a unit/division that differs from the regular work assignment, 2) student must be assigned a field supervisor who is not the work supervisor, and 3) the agency must provide release time for the field education. The student must also complete a Place of Employment Field Site Application.

Criminal disclosure

Students will complete the criminal disclosure form at the time of their first advising appointment. This form mirrors the language of the Ohio licensing board. The purpose of asking a student about his or her criminal history is twofold: 1) discuss the implications a criminal history may have on field placement options and 3) prepare a student to discuss a criminal history with employers and the licensing board in their future career. Failure to accurately disclose a criminal history is considered lying, an unethical behavior, and will result from dismissal from the program.

If a criminal disclosure has been made, the MASW director, the field coordinator, and the student will meet to discuss the implication of a criminal history for field placement, licensing, and employment opportunities. Students with a criminal history may have limited field placement options than others, and it may take the field placement director longer time to secure a placement.

Professional Liability Insurance:
Starting in Fall 2015, all MASW students pay a field fee of up to $75 per field class for professional liability insurance that the Social Work department purchases. The fee appears on every student’s tuition bill and is treated the same as a laboratory fee. It is not refundable once the term starts.

The fee includes the following costs associated with field:

- Liability insurance (for WSU students)
- The cost of cultivating placements and recruiting new field supervisors
- Field supervisor training
- Mileage to make the field visits

**Placement Process for Field Education:**

Students must meet the eligibility requirements stated earlier in this handbook. When the eligibility requirements are met, students are able to start the official placement process. In order to enroll in the field placement for the Spring Semester, students must apply during the preceding Fall Semester. Students must **complete the application** form which is called the Student Profile. Once the Student Profile is completed, students then schedule a **screening interview** with the Field Education Coordinator. The purpose of the screening interview is to determine the readiness of the student to enter the field placement and the appropriate agency for the field placement. Readiness of students for field placement is based on the student's completion of prerequisites, expressed readiness, and input from the social work faculty. If it is felt that the student is not ready to do a field placement, the Field Education Coordinator reserves the right to not accept the student for field placement at that time.

The actual placement site is a negotiable matter between student, the Field Education Coordinator, and the desired agency, based on the student's interest and practice goals, and the availability of an appropriate agency to meet these goals.

The identified agency for desired placement will have the final decision to accept the student for placement, based on an interview between the student and the designated supervisor and/or agency designee. The student also has the right to accept or reject the agency for placement. The Field Education Coordinator will finalize the agreed upon placement in written form, clearly delineating the starting and ending dates of the field education experience.

Under usual circumstances, foundation and advanced field placement must be in different agencies unless there are exceptional circumstances which may include, but are not limited to, field coordinator's decision, unique learning opportunity, or others. Moving field placements may delay program completion.

Students may be asked to drive their personal vehicle on behalf of their agency as part of their field placement duties. Driving may or may not include transporting
clients. Students whose duties may include driving for their agencies should plan on being able to provide their agency with a copy of their valid driver’s license and proof of at least the minimum required level of auto liability insurance.

**VIII. Responsibilities and Functions of the Faculty, Students, and Field Education Agency**

The **Field Education Coordinator** has the following responsibilities:

A. To screen students making application for practicum.

B. To provide students with information about placement opportunities including specific agencies and programs.

C. To provide agencies with information about particular students.

D. To match students with agencies keeping the interests and needs of both in mind.

E. To arbitrate issues that may arise where either agency or student is experiencing difficulty, and to make and carry out decisions to remove students when necessary.

F. To provide assistance as deemed appropriate, to the faculty-field liaisons/seminar instructors, field supervisor, agency, and/or student upon request.

G. To identify and evaluate agencies as potential practicum settings for students.

H. To plan and implement orientation and other seminars for field supervisors.

I. To carry out other duties as identified as being related to practicum.

The **Faculty-Field Liaisons/Seminar Instructors** have the following responsibilities:

A. To attend annual orientation and scheduled faculty-field liaison/seminar instructor meetings.

B. To read and evaluate student's logs.

C. To assess student's performance/progress during visits to agency, including the assessment of at least one observation of a student activity in the agency.??

D. To maintain ongoing contact with assigned students and agencies and arbitrate issues that may arise between them.

E. To plan and conduct the seminar in which students participate during
practicum at specified intervals.

F. To keep students and field supervisors aware of all dates and related expectations that effect practicum. This includes dates, times, and location of seminars, dates evaluations are due, etc.

G. To assign grades based on final evaluations, logs, participation in seminars, and/or other clearly specified criteria.

H. To keep Field Education Coordinator apprised of any major problems.

I. To notify the Field Education Coordinator whenever arbitration necessitates intervention at or above the Coordinator level.

The **Agency** has the following responsibilities:

A. To provide learning experiences that adheres to the Social Work Program's purpose and outcomes.

B. To provide the supervisory/instructional personnel to ensure quality learning experiences for students, that is, to select a person with the MSW from a CSWE accredited social work program. (Exceptions must be arranged with the Field Education Coordinator.)

C. To provide travel reimbursement for student expenses incurred while performing agency business or to explore the feasibility of reimbursement if such a policy does not exist.

D. To provide opportunities to work with members of different ethnic groups.

E. To provide adequate space and supplies for students.

F. To prepare the agency personnel for the arrival of student(s).

G. To participate in the selection of student(s) assigned to agency, including interviewing student(s) prior to placement and submitting forms indicating acceptance or non-acceptance.

H. To provide learning experiences that insure students’ direct involvement with clients in a manner consistent with Practicum course outcomes, professional social work practice, and the NASW Code of Ethics.

I. To provide learning experiences that expose students to the total operation of the agency.
The Field Supervisor (Field Instructor) has the following responsibilities:

A. To develop the learning/contract activities of the students that ensure achievement of the expected field outcomes.

B. To meet with students for at least an hour each week for an instructional conference, and at other times as needed.

C. To complete the mid-point and end of term evaluations.

D. To serve as a professional role model for the students.

E. To attend orientation and special meetings convened for field supervisors.

Students have the following responsibilities:

A. To be present at the agency during the times arranged for the practicum. If, for any reason, the student is unable to adhere to the designated dates and/or times, the student is to immediately notify their field supervisor and the Field Education Coordinator.

B. To make and comply with arrangements made to cover any missed time.

C. To spend 900 clock hours in the field placement (300 hours each semester) for three semesters for full time students. To spend 600 clock hours in the field placement (300 hours per semester) for two semesters for advanced standing students.

D. To conduct themselves in a responsible and professional manner at all times while carrying out the assigned duties of the agency. This includes promptness, neatness in personal appearance, and working cooperatively with other staff members.

E. To comply with the NASW Code of Ethics and to conform to the agency rules to protect client rights, particularly with regard to confidentiality of case material and other information the student may have access to because of the practicum assignment.

F. To work within the framework of the agency established by its policies and procedures.

G. To attend each scheduled field placement seminar.

H. To actively participate in case assignments (individual, family and group work), conferences, and all other activities deemed appropriate by the agency.

I. To be part of the learning experience, doing each assignment to the best of
his/her ability.

J. To keep a log of the actual hours in practicum and be able to document that the total hours required have actually been fulfilled.

K. To keep the Field Education Coordinator and faculty-field liaison aware of any problems he/she is concerned about and/or is unable to resolve in cooperation with the field supervisor.

L. To not make initial contacts with agencies regarding practicum placement possibilities, without the specific permission of the Field Education Coordinator.

M. To complete all expectations, contractual agreements, and assignments that are defined as part of the practicum experience.

N. To meet all the obligations the student has to the University, agency, and clients.

IX. Grievance Procedures

The grievance procedures are developed for use by students, faculty, agency based field supervisors, and clientele. The grievance procedures are designed to deal with discrepancies that may emerge during the field practicum experience. A step-by-step procedure is outlined and must be followed in order and timetable outlined.

Step 1. Whenever there is a discrepancy, the two parties involved should take every precaution to try to resolve the matter. If the matter cannot be resolved, then the matter should be brought to the attention of the agency based field supervisor. If the matter cannot be resolved at this level, the grieving person must inform the other party of his/her intention to proceed to Step 2. This should be communicated in writing with a copy being forwarded to the Field Education Coordinator within five working days following the meeting between the student and agency based field supervisor.

Discrepancies between clientele and students will be resolved and handled in Step 1 only. If additional action is required, the procedures of the agency will be followed. The agency based field supervisor will inform and keep the Field Education Coordinator and the faculty-field liaison/seminar instructor apprised of all developments.

Step 2. The student, field supervisor, faculty-field liaison/seminar instructor, and Field Education Coordinator will meet to resolve the matter. If satisfactory resolution is not obtained, then the grieving parties may initiate action within five working days following the meeting by written communication to the Chair of the Program.
Step 3. The Chair will meet with parties to try to satisfactorily resolve the matter. If a satisfactory agreement cannot be reached, the parties will move to the final step.

Step 4. The final step will involve meeting with a panel of three. Each party in conflict will select a representative from a developed list to hear grievance. This panel of three (Department Chair and two selected representatives) will make a final decision to which parties must agree.

X. Evaluation Process for the Student in Field Education

The evaluation of the student in field education is a joint assessment of the field supervisor and faculty-field liaison/seminar instructor.

Both the student and the agency field supervisor have an integral part in the evaluation. Each has a particular level of responsibility in making it an educational part of the practicum. Communication between the agency field supervisor and the student should be such that both are aware of the level of performance of the student at any given point in time. Ongoing and regularly scheduled conferences between student and supervisor are necessary in order for this to be achieved.

Students are evaluated twice during the Field Education I, and once each at the end of Field Education II & III. For the first semester field experience, students will receive a midpoint evaluation at seven weeks and an end of the semester evaluation.

The due date for each specific evaluation will be communicated to students and supervisors.

A contract/evaluation tool must be developed each semester based on the appropriate outcomes. The use of this tool is explained during the orientation with students and field supervisors.

In addition to participating in the evaluation, each student is required to review and sign the evaluation before it is submitted. The student's signature does not denote agreement about its content but rather that the student has had an opportunity to read and discuss the evaluation with the supervisor. Students may submit a written addendum to the evaluation if there are disagreements with respect to the ratings and comments. The addendum must be reviewed and signed by the supervisor.

Evaluations are considered the property of the MASW program. However, students may make a written request that a copy be given to them or sent to an employer or a graduate school.

The evaluation for Field Education I contains a list of foundation practice dimensions which must be met by the end of the term. The evaluations for Field Education II & III contain a list of advanced generalist practice dimensions which must be met by the end of each term.
Each student will receive a Pass or Unsatisfactory for the field education setting each semester. Field supervisors will complete the field evaluation for three terms rating each practice dimension on a scale from 0-2, with 2 being the highest score. Field supervisors should notify the field education coordinator if a student is receiving multiple “0” or “1” scores. Students will receive a Pass for field education if they have been rated as Competent (scores a 2) in at least 70 percent of all practice dimensions, including specific practice dimensions related to ethical decision making and conduct, maintaining professional boundaries, applying self-regulation to managing personal biases and understanding the importance of diversity. Students will not receive a Pass should they score less than 2 in these areas, despite a rating of Competent in all other areas. Please see the Field Education Contract and Evaluation in the Appendices for the specific practice dimensions that students must be competent in to receive a Pass.

XI. Field Education Seminars and Concurrent Classes

A field education seminar will accompany the Field Education placements (Field Education I, II & III). Students will meet in the seminar twice each month for one and a half hours. The time and location of the seminar will be arranged with the Field Education Coordinator. Students will be given assignments that apply to the field setting. The final grade will be a letter grade.

At the foundation level in Field Education I, students must engage in field experience that allows one to fulfill the core competencies while developing generalist, foundation practice dimensions. The field experience component of SW Field Education and Seminar provides this opportunity during the second semester of the first year. At the advanced level in Field Education II & III, students must engage in field experience that allows one to fulfill the core competencies while developing advanced generalist dimensions, in an area of specialization, either in a setting providing interventions to help Children and Families or Older Adults. The advanced generalist field education experience is split between two semesters of their second year.

Students are expected to apply knowledge from their concurrent practice courses during their field experiences. In Field Education and Seminar I, the content from HBSE I & II, Policy I & II, Practice I & II, Research I, and Cultural Competency provide the theory and concepts to complete the foundation practice behaviors. In Field Education II & III, the content from Advanced Generalist I & II, Research II & III, and the advanced generalist three course focus area courses provide the theory and concepts to complete the Advanced Generalist practice dimensions.

XII. APPENDICES

The Appendices to the Field Manual provide the tools for students, faculty, and field instructors to assist students in meeting the program mission, goals, competencies, and practice behaviors through the field education experience. The Student Handbook provides other program policies that are not repeated in the Field Manual. Students are expected to be knowledgeable of the policies and procedures contained in both the Student Handbook and the Field Manual. The Student Handbook also contains
the NASW Code of Ethics and the CSWE Education Policy and Accreditation Standards 2015. These two documents can be provided to field supervisors who request them.
APPENDIX A

GREATER MIAMI VALLEY JOINT MASW PROGRAM

STUDENT PROFILE

Social Work Field Education I

Directions for Completion: (Please type.)

Students must undergo a meaningful self-assessment before they can participate in the selection of appropriate field placements. This form provides a structured method for you to conduct this self-assessment and will assist in making an appropriate match between your expectations, needs, and educational goals. This form will also assist the agency in developing a meaningful practicum experience.

<table>
<thead>
<tr>
<th>NAME</th>

<tr>
<td>PROGRAM CONCENTRATION</td>
</tr>
</tbody>
</table>

1A. Undergraduate degree:

1B. List full titles of completed courses (undergraduate and graduate) that have prepared you for placement. Include courses in Social Work, Sociology, Psychology and Rehabilitation Counseling, etc.
2. List your employment history, starting with the most recent employer.

3. List your social work related volunteer experiences. Include your mini-practicum experiences if applicable and note with an asterisk.

4. List the main characteristics of your personality (e.g. passive, assertive, easily intimidated, eager, anxious, shy, creative, etc.)

5. List at least five (5) things about you that you consider to be your assets--your strongest points. Be very specific and personal; do not just say, "I think I have good skills", but "I learn quickly" or "I can handle a lot of pressure."

6. List at least five (5) things that you need to work on improving or skills you need to
learn.

7. What kind of climate or learning environment is necessary in a field placement for you to learn or to be productive?

8. What do you want from a supervisor?

9. What are your specific goals for practicum?

10. Review your answers to all the previous questions. Is there anything you expect from your practicum placement that has not been covered? If so, list below and comment on each.

11. Is there anything that might interrupt your placement?
12. Do you have transportation?

| Yes | No |

13. What days of the week and times will you be available for placement
(Please note that the department recommends 20 hours of practicum each week)

Please sign and date below to indicate that you consent to our releasing the above
information to prospective agencies and that you understand that some agencies may require
additional information such as health screenings, criminal background checks, and drug
screens.

<table>

</tbody>
</table>

Note: Students needing an accommodation for a disability should direct their requests to
the agency director after they have been accepted for the practicum. Please contact WSU’s
Office of Disability Services for information on transportation and other resources.

NOTE: Please keep Questions 15, 16, and 17, which are on the next page, separate
from the other questions since this information is used for screening purposes and
does not go to the agency.
NOTE: These Questions & Responses are not sent to the prospective agencies.

15. What are your career goals?

16. Are you registered with the Office of Disability Services/Do you have any physical, learning, or mental condition that should be considered in planning a field placement? If so, please indicate your limitations and needs as a result of this condition.

17. Did you report any criminal history to the department when you applied for the program? Have there been additional charges since then? [Please discuss these issues/potential issues during the field interview]

18. Considering your responses to the previous questions and your current situation and desires, what kind of setting would you want for your practicum placement? List at least three types of agencies, populations and/or fields of practice in rank order with the first being the most desired (refer to the department Website and/or the United Way Social Services Directory available in the Social Work Office).

MID-POINT EVALUATION FORM
(Completed During Spring Semester)

Social Work – Field Education I

Seminar Field Instructor:

Date: _______________________________

Name of Student: ____________________________________________________________

Name of Supervisor: __________________________________________________________

Name of Agency: ____________________________________________________________

(Address) ____________________________________________________________

Phone: ______________________

Evaluation Period -

Hours Completed: ______________________

Directions: A meaningful performance evaluation must give an accurate assessment of the student's performance in

carrying out assignments as well as their ability to receive and actualize instructions for completing assignments.

Please use the following scale to evaluate each area:

2= Student demonstrates entry level social work skills

1= Student demonstrates some difficulty but is capable of improving social work skills; at this time, the skills are below

expectation for a beginning level social worker

0= Student demonstrates no ability to practice social work skill; meeting with faculty needed immediately
MID-POINT EVALUATION FORM

Page 2

____ Demonstrates appropriate understanding of the social policy and procedures that govern the agency and its service delivery.

____ Demonstrates a conscious disciplined use of the professional self (attendance, punctuality, and assignment completion, as well as thoroughness, etc.)

____ Demonstrates an ability to assume responsibility for own learning - i.e. comes to supervision prepared to ask questions and provide feedback regarding status of assignments, readiness to assume additional activity, etc.

____ Applies knowledge gained through past experiences to current situations (classroom, orientation, previous assignments, etc.)

____ Exercises initiative in pursuing opportunities to enhance and/or further professional learning

Identify the areas the student needs to work to enhance, prior to the semester ending:

Are there new goals that have emerged as a result of this evaluation? If so, please list.

Please comment on the student's observable potential as a "helping person."

The learning contract provides a broad framework for developing an individualized learning plan which is responsive to the needs of the student and the resources of the field agency. It is designed to give direction and learning structure to the field experience and is developed around the core practice competencies that are designated in the 2015 Educational Policy and Accreditation Standards (EPAS) by the Council on Social Work Education (CSWE).

It is the joint responsibility of the student and field instructor to negotiate the learning contract content within the first weeks of the field placement. The student is responsible for providing a copy of the learning contract to the Seminar Instructor/Field Liaison.

This learning contract outlines the 9 core competencies and 31 practice behaviors that all accredited social work programs are required to measure. All 31 practice behaviors must be completed during this placement. At least one task must be addressed, and can be modified to fit the agency setting. Students will receive a Pass for field education if they have been rated as Competent (scores a 2) in at least 70 percent of all practice dimensions, including the specific practice dimensions marked with an asterisk.

MASW Field Education Contract/Evaluation
Advanced Generalist/Second Year
Wright State University
Department of Social Work

Contract/Evaluation Period: Fall/Spring Semester 201_

Updated Fall 2016

| Name of Student: | | | |
| Name of Supervisor: | | | |
| Agency: | | | |
| Address: | | | |
| Phone: | Date: | Hours Completed: |

Directions: A meaningful performance evaluation must give an accurate description of the student’s performance in carrying out assignments. Nine competencies and 18 practice dimensions guide the expected learning experiences. Please rate the student on the practice dimensions based on the tasks and performance criteria outlined in the Student Field Practicum Contract. You may add tasks as appropriate to your setting that are not listed if the student will be performing those in association with a competency and practice dimension.

Students will receive a Pass for field education if they have been rated as Competent (scores a 2) in at least 70 percent of all practice dimensions by the end of the year, including the specific practice dimensions marked with an asterisk.

| 2-Competent | Student demonstrates entry level social work skills |
| 1-Below Competent | Student demonstrates some difficulty but is capable of improving social work skills; at this time, the skills are below expectation for a Master’s level social worker |
| 0-Not Competent | Student demonstrates no ability to practice social work skill; meeting with faculty needed immediately |
| N/A-Did not observe | Behavior was not observed or worked on during this semester |

Please conclude with a statement summarizing strengths and areas for attention or need for further development.
## Competency #1: Demonstrate ethical and professional behavior

<table>
<thead>
<tr>
<th>Practice Dimensions</th>
<th>Suggested/Possible Task(s)</th>
<th>Score</th>
</tr>
</thead>
</table>
| Practice self-reflection and continue to address personal biases and dispel myths regarding clients and their communities in order to advance human needs* | - Maintain personal journal/complete logs that address personal biases and/or myths regarding clients and client experiences  
- Process difficult client experiences and any resulting emotional responses with supervisor, discussing the role of personal values and biases in the process  
- Discuss with supervisor any perceived biases observed in other workers regarding the client population, processing how these may compare with own values and biases |       |
| Use clinical supervision to negotiate ethical dilemmas and ensure professional boundaries are maintained with clients* (Field Seminar II) | - Reflect on, and discuss with supervisor potential or real ethical dilemma faced with client and steps taken for resolution  
- Discuss with supervisor a time the student was able to uphold professional boundaries with a client that was inappropriate  
- Discuss with supervisor considerations to be made for ethical conduct across micro, mezzo and macro environments |       |

Comments:

---

## Competency #2: Engage diversity and difference in practice.

<table>
<thead>
<tr>

STUDENT EVALUATION OF AGENCY
(Completed at the End of Field Placement)

Name ___________________________________________________________

Agency Assigned _________________________________________________

Time Period for the Practicum _______________________________________

Please complete the following form. It will be used in making an assessment for agency selection in the future.

Agency

1. Were service/learning experiences provided that allowed you to work with members of various ethnic groups?
   Yes _____   No _____   Uncertain _____

2. Were appropriate supervision and instructional personnel provided to ensure quality service/learning experiences?
   Yes _____   No _____   Uncertain _____

3. Were service/learning experiences provided that ensured direct involvement with clientele in a manner consistent with professional social work development?
   Yes _____   No _____   Uncertain _____

4. Were there adequate space and supplies?
   Yes _____   No _____   Uncertain _____

5. Were opportunities provided to utilize new approaches of social work interventions?
   Yes _____   No _____   Uncertain _____

6. Did the agency provide travel reimbursement for expenses incurred while performing
agency business?

Yes ______  No ______  Uncertain ______

7. Did the agency provide written copies of its rules and regulations?

Yes ______  No ______  Uncertain ______

8. Did the agency provide easy access to records for learning experiences?

Yes ______  No ______  Uncertain ______

9. Did the staff reflect the local diversity?

Yes ______  No ______  Uncertain ______

10. Was the agency and other staff members prepared for the arrival of students?

Yes ______  No ______  Uncertain ______

11. Were opportunities available for exposure to the total operation and activities of the agency?

Yes ______  No ______  Uncertain ______

Supervision

12. Were there appropriate service/learning experiences?

Yes ______  No ______  Uncertain ______

13. Were weekly instructional conferences held?

Yes ______  No ______  Uncertain ______

14. Did you have access to instructional personnel when needed?

Yes ______  No ______  Uncertain ______

15. Was adequate time allotted for consulting with instructional personnel?

Yes ______  No ______  Uncertain ______

Learning Activities

16. Were there opportunities to learn about the structure of organizations and service delivery systems?
17. Were there opportunities to discuss and/or work toward making necessary organizational change?

Yes _______  No _______  Uncertain _______

18. Were there opportunities to use theoretical frameworks to understand individual development and behavior across the life span, and the interactions between individuals and among individuals and families, groups, organizations, and communities?

Yes _______  No _______  Uncertain _______

19. Were there opportunities to apply the knowledge (from textbooks) and skills of generalist social work practice with systems of all sizes?

Yes _______  No _______  Uncertain _______

20. Were there opportunities to apply the value base of the profession and its ethical standards and principles (SW Code of Ethics), and practice accordingly?

Yes _______  No _______  Uncertain _______

21. Were there opportunities to evaluate research studies, apply research findings to practice, and evaluate your own practice interventions (applying knowledge from research classes)?

Yes _______  No _______  Uncertain _______

22. Were there opportunities to describe the forms and mechanisms of oppression and discrimination and apply strategies of advocacy and social change that advance social and economic justice?

Yes _______  No _______  Uncertain _______

23. Were there opportunities to use supervision and consultation appropriate to social work practice?

Yes _______  No _______  Uncertain _______

24. Were there opportunities to learn to write clearly, concisely, and with good grammar, punctuation, and spelling?

Yes _______  No _______  Uncertain _______

25. Were there opportunities to learn to speak clearly, concisely, and with conviction?

Yes _______  No _______  Uncertain _______
26. Were there opportunities to use communication skills differentially across client populations, colleagues, and communities?

Yes _______  No _______  Uncertain _______

27. Were there opportunities to apply critical thinking skills within the context of professional social work practice?

Yes _______  No _______  Uncertain _______

Impressions

27. How did you perceive yourself at the agency?

Student ____  Visitor ____  Staff ____  Other ____  Uncertain ____

28. How did the agency perceive you?

Student ____  Visitor ____  Staff ____  Other ____  Uncertain ____

29. Were the supervisory sessions beneficial?

Yes _______  No _______  Uncertain _______
30. What would you list as the positive features of the field placement?

31. What would you list as the features of the field placement which should be improved?

32. Would you recommend this agency as a site for future student placements? Why?

33. What recommendations would you make regarding this placement site?

Revised 9/16
