## Section 6

### 6.0.0 **Music Program Assessment Instruments**

#### 6.1.0 **Performance Juries**

At the end of each fall and spring semester, each undergraduate music major performs on his or her major instrument or voice before a jury of at least three faculty with expertise in the performance area. This jury makes a qualitative assessment of the student's performance and progress in comparison to the previous end-of-semester performance. Results are reported to the student: These results may contain a rubric that contains descriptions of criteria, and/or comments that provide qualitative feedback, and grades. These results are then delivered to the students in a letter shortly after the jury process. Copies of these letters are kept in the student's file. Students also have opportunities to receive verbal feedback on performances throughout each fall and spring semester during master classes and studio classes in their particular instrument or voice.

Since most undergraduate music majors participate in at least 8 performance juries before they graduate, these experiences allow faculty to assess student progress through the degree. Students must perform two satisfactory juries at each level in order to qualify for the next level of applied lessons (e.g., two 3000-level juries must be passed successfully before a student may enroll in study at the 4000-level of literature difficulty and technical difficulty).

Performance juries provide an opportunity for an overview or "snapshot" of the success of the performance program-enabling faculty to make judgments and decisions about the program on a regular basis. Juries also provide an opportunity for full-time faculty with expertise in each area to assess the teaching of the part-time applied faculty in that area. All oboe students, for example, study with the same adjunct applied instructor. If a large number of the oboe students showed through their performance juries that they were not making satisfactory progress, the full-time faculty who coordinate the woodwind jury would likely discuss the matter with the applied teacher and, if warranted, take appropriate action to help the teacher achieve greater success. [A more detailed description of the jury process can be found in the Applied Policy Document located on the School of Music website.]

#### 6.2.0 **Student Teaching (Music Education)**

The last semester of the Bachelor of Music in Music Education program is the Music Education Internship, which consists of student teaching in a K-12 public school full time under the supervision of a public school cooperating teacher, a university supervisor, and a full-time music education faculty member. All music teacher certification candidates must engage in this internship in order to become certified teachers. Student performance as a teacher is assessed throughout the experience through self-assessment (reflection on videotapes of teaching), informal and formal feedback from the cooperating teacher, university supervisor, and the full-time music education faculty member who is responsible for the internship seminar that semester. During the internship, students are formally assessed three times. Assessment rubrics for these three assessments are used and serve as a prompt for discussion among all parties involved. If student performance is not at a sufficient level by the end of the internship, the student is not certified. Student success in the internship is also a measure of the effectiveness of the music education program. [A more complete description of the student teaching process can be found on our School of Music website in the area of Music Education.]

#### 6.3.0 **Degree Recitals**

All Bachelor of Music students, with the exception of those majoring in Music History and Literature, are required to perform a Senior recital on their major instruments or voice. Performance majors are also required to perform a Junior recital. The student chooses and prepares a program with the applied instructor. The recital committee then approves the program. This recital committee is selected by the student and is comprised of 3 faculty, 1 of whom is the applied teacher. The student then performs an approval jury (called a pre-hearing). Once the recital is approved, the student presents a public recital. The recital committee attends the recital and provides verbal and/or written feedback to the student. The student's performance must earn a passing grade in order to qualify for the degree sought. Student success in the recital is also a measure of the effectiveness of the music performance program. [A more detailed description of the recital process can be found in the School of Music Applied Policy Document located on the School of Music website.]

#### 6.4.0 **Direct Measures**

##### 6.4.1 **Master's Thesis or Project and Oral Examination**

When the coursework for the Master of Music degree is complete or near completion, all graduate music majors engage in research and/or preparation that lead directly to a thesis, a project, or a recital. Music education students often write a thesis that is based on a research study though this is not mandatory. Each student selects a topic under the guidance of the thesis or project adviser, writes a proposal, and selects a committee. The student then submits a proposal to the committee, completes the project, recital, or thesis, and then presents their recital, project, or research findings. The oral examination also provides an opportunity for an informal exit interview in that the committee and student generally discuss the student's success in the program as part of their conversations.

##### 6.4.2 **Master's Recital and Oral Examination**

During the last semester of the Master of Music in Performance and Conducting programs, all graduate performance and conducting majors perform a master's recital. Performers present a one-hour solo recital. Conductors generally have opportunities to conduct individual works performed by WSU ensembles. The student chooses and prepares a program with the applied instructor or conducting mentor. A recital committee is then selected. The student then performs a recital pre-hearing. Once the recital is approved, the student presents a public recital. The recital jury attends the recital and provides verbal and written feedback to the student. At the oral examination that follows the recital, the student may be asked to share with the committee his or her process of preparation, knowledge of the literature performed, self-critique of the performance, as well as broader questions about the field of music and their chosen specialization. Student success in the recital is also a measure of the effectiveness of the graduate music performance and conducting programs. The oral examination also provides an opportunity for an informal exit interview in that the committee generally discuss the student's success in the program as part of their conversations.

##### 6.4.3 **Student Performance in General Education Courses: Direct Measures**

The School of Music has a separate assessment plan for general education courses - in the format requested by the General Education Committee. The General Education Assessment Report was completed and handed in at the same time as we did this report on our offerings for music majors.

#### 6.5.0 **Program Evaluation: Indirect Measures**

6.5.1 **Graduate/Alumni survey:** Every 10 years National Association of Schools of Music Survey is administered. Every 10 years, coinciding with self-studies surveys are required for continued accreditation. In recent years we asked the same questions through Survey Monkey, contacting alumni through email and Facebook.

##### 6.5.2 **NASM Evaluation Visits**

##### 6.5.3 **Reports from students after internship experience**

Music Education Interns assess their university supervisors and cooperating teachers.

##### 6.5.4 **Graduate School Placement**

The School of Music keeps an informal record of graduate school placement of graduating seniors.

##### 6.5.5 **Job Placement**

The music unit keeps an informal record of job placement of graduating seniors.

The music education faculty also tracks the success of graduates as they enter the education job market.

##### 6.5.6 **Responses from Employers**

Such responses are informal. For example, when school principals and central office personnel call for references for candidates applying for music teaching jobs in their districts, they often comment about how pleased they have been with our teachers or interns in the past. That they call us personally to ask for our graduates is also a measure of this. K-12 schools throughout Ohio heavily seek after WSU music teachers. Calls generally come from all over the state.
